ABOUT ME

TO DEFINE YOURSELF IS TO LIMIT YOURSELF

I am a multitasking creative: art director, copywriter, illustrator, product designer (UX/UI), packaging designer, graphic designer, final artworker, I like working in multiple projects and fields and learning new things. I am interested in sustainability and innovation.

I've worked offline and online, I've worked in an agency and by my own. I am used to working under pressure and with SCRUM. What I like the most is to think ideas and concepts, to create campaigns that will make a better world, make people laugh, lead teams and work on bold and innovative projects.
